Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am personally disgusted and disappointed in our Federal Government's misused efforts in trying to make an extra penny in hard economic times. Furthermore, users of this pre-paid wireless service chose this type of service for reasons of saving money and making emergency and minimum calls. You can either grant us our freedom to save money on monthly bills or give us better paying jobs, or the FCC can just continue to suck my wallet dry and join every other Enron mogul that cares for nothing but the green on their thumbs.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Kirk Flores
